FEBRUARY 2018

FEBRUARY TOPIC OF INTEREST

Single Subject Acceleration

The concept of Single Subject Acceleration (SSA) stems from the practice of assigning a student to a higher grade level than is typical in order to provide access to appropriately challenging learning opportunities. SSA is an accelerative practice that allows students to show mastery of the content of an elementary or middle school course without having taken the course. A parent may nominate his/her child to skip a grade level of content in Language Arts OR Math.
